

Discover how IVS expands educational opportunities for students and assists schools with the Remote Education Act.

DISABILITY SERVICES

The unique learning environment that IVS provides is a valuable alternative for students with disabilities. Not only do we design our courses to be accessible to students of a variety of levels and learning preferences, but we also consider the individual needs of our students with disabilities by helping each student's special education team provide individualized accommodations and modifications in our courses.

To start this process for an enrolling student, please fax us a copy of the student's IEP or 504 plan, along with the name and contact information of the student's case manager to:

Barb Closen, Director of Operations
 309-676-1000 ext 1051
 Fax: 1-888-440-7743

If you have any questions about our disability services, please don't hesitate to contact us.
