

Completion

Supplemental Online courses are an optional avenue for instruction. All existing requirements related to student progression including retention, promotion, and grade assignment are the same for the school district's online students as they are for students enrolled in traditional courses. Each local school board shall ensure that students have the opportunity to advance through the supplemental online course at their own pace so long as the supplemental online course completion corresponds with the standard course completion schedule of the district or the student's Individualized Education Program (IEP) or 504 Plan.
